

Please DO NOT expand LPFM service. The only radio my kids and I listen to is 88.7, often heard on FM translators. It is a Christian rock station we listen to daily (and financially support), and our family would honestly not be listening to any radio if this station would be forced off the air. It greatly serves our community; not only do most of their friends listen, but this station provides a counseling hotline which has prevented many suicides. This radio station has a positive impact on our area; please help keep it on the air. Thank you!
